

FOR IMMEDIATE RELEASE

IISc Foundation Invites Global Partners to Shape the Future of Healthcare and Science in India

Dallas, TX — August 1, 2025 — The IISc Foundation, a U.S.-based philanthropic organization supporting the Indian Institute of Science (IISc), invites philanthropists, global foundations, and corporations to join in advancing groundbreaking initiatives in medical education and healthcare innovation.

India's premier research university, the Indian Institute of Science, is embarking on a historic expansion with the creation of the **TATA IISc Medical School** with the **Bagchi-Parthasarathy Hospital**—a cutting-edge academic hospital poised to redefine science-driven healthcare in India and beyond.

A Global Vision for a National Mission

With a legacy spanning over 116 years in science and engineering, IISc is pushing new boundaries to meet urgent needs in biomedical and clinical research, translational medicine, and equitable healthcare delivery. At the heart of this vision are the **TATA IISc Medical School**, grounded in a rigorous research-oriented curriculum, and the **832-bed Bagchi-Parthasarathy Hospital** (with 500 beds in the initial phase).

The IISc Foundation is seeking **visionary partners** to fund key areas such as research, faculty endowments, international collaborations, scholarships, cutting-edge medical technologies, and inclusive patient care programs—ensuring the long-term impact and sustainability of this transformative effort.

“The TATA IISc Medical School and the Bagchi-Parthasarathy Hospital will not only serve as a beacon of scientific excellence, but also as a platform to solve real-world healthcare challenges,” said **George Brody**, President of the IISc Foundation. *“We invite international partners to join us in supporting a world-class center where science, medicine, and humanity converge.”*

Why Partner with the IISc Foundation?

- **Global Impact:** Help shape the future of science-based medicine in one of the world's fastest-growing economies.
- **Enduring Legacy:** Create named fellowships, endowed chairs, laboratories, or patient-care wings that reflect your philanthropic vision.
- **Transformational Science:** Drive interdisciplinary advances in areas such as cancer, infectious diseases, and AI in healthcare.

- **Trust and Transparency:** Benefit from the IISc Foundation's strong governance and stewardship practices, aligned with global philanthropic standards.

Join Us in Pioneering Change

The IISc Foundation welcomes inquiries from individual donors, family offices, corporate CSR programs, and global foundations interested in becoming part of this historic transformation. **Naming and co-investment opportunities** are available for select programs and facilities.
